

PILATUS PC-12

“THE WORLDS MOST VERSATILE SINGLE ENGINE TURBOPROP”

NAVYAIR

PILATUS PC-12

In operation around the globe, the Pilatus PC-12 has found popularity in a number of roles, including executive transport, cargo, air ambulance and private air charter. Since its release in 1994, the Swiss made aircraft have gained a reputation for outstanding versatility, performance, reliability and operational flexibility.

Boasting huge cargo capacity and impressive payloads, the PC12 is ideal for small groups traveling quite literally anywhere in Australia; from rural airstrips to international airports. A PC-12 can fly up to 2600km without refuelling, to land on a dirt airstrip as short as 800m; while carrying up to seven passengers in complete luxury, with all their luggage.

Comfortably appointed with recently refurbished seating - arranged in an executive club style.
