PIPER AEROSTAR 600

Renowned for being one of the fastest piston twin aircraft ever made, the Piper Aerostar 600 was designed by aviation legend Ted R. Smith, and continues to fly passengers all over the world in record time.

Great value, well equipped and extremely versatile, our Aerostar is utilised for private charter and biomedical transfers. If required, it can also be converted for urgent cargo delivery with a payload of up to 500kg.

With seating for up to 4 passengers, and boasting a cruise speed of almost 400km per hour; the Aerostar has a range of approximately 2,200km. Classicly appointed with blue leather seating, this aircraft has a fold out business table; and all flights in the Aerostar include light refreshments.
